

# ***BILINGUAL SUPERKIDS!***

***Powerful private coaching for parents worldwide***

## ***BILINGUAL BLAST-OFF!***

***Coaching for new parents still early in their journey***

***GET OFF TO THE STRONGEST START POSSIBLE!***

Through this 3-month coaching program, parents with babies and toddlers will learn how to maximize their children's bilingual or multilingual development during childhood. By optimizing the conditions of your child's language acquisition, and the daily actions that you pursue, your child will make stronger progress over time and the whole family will experience greater success and joy on this long journey together. (A happy outcome for everyone!)

By the end of these 3 months, you'll be able to advance your bilingual or multilingual aim with more know-how and confidence. Moreover, this program also includes continuing coaching support after that, in various ways, so you'll never again feel alone on your journey. (No more lonely worries!) As a result, you'll enjoy deeper peace of mind and satisfaction throughout the childhood years.

### **Step 1: Analyze Your Circumstances (Weeks 1-2)**

We'll start with a Full Analysis, analyzing all the factors that will impact the success of your bilingual or multilingual aim. An in-depth questionnaire will paint a clear picture of your family's current circumstances, and a follow-up **coaching session in Week 2**, via Zoom or another video chat platform, will flesh out the details further. *(All coaching sessions last as long as we need, generally 1-2 hours.)* This analysis will enable us to identify the strengths and weaknesses of your situation, and determine ways to better optimize these basic conditions and your daily actions. Through this powerful first step, we'll be laying the foundation for maximizing your child's language development over the years ahead.

## Step 2: Customize Your Action Plan (Weeks 3-4)

We'll then take the findings from our analysis and develop a clear, concrete Action Plan designed to fortify your conditions and your efforts. This customized plan will be set down in writing and will serve to motivate the most effective efforts you can make, day by day, through the crucial early years of your bilingual or multilingual journey. (Your Action Plan will naturally evolve in certain ways as your child grows and your circumstances change.) Our **coaching session in Week 4** will enable us to discuss your initial experience of this Action Plan and make suitable adjustments, as needed, to strengthen it further.

## Step 3: Maintain Your Proactive Efforts (Weeks 5-12)

With the Action Plan as your guide, you'll stay proactive in your daily efforts to nurture your child's language development. Toward this end, we'll put special attention on establishing and sustaining productive habits and routines. Regular support through email and audio/video messages, along with two more **coaching sessions in Weeks 8 and 12**, will help you maintain your motivation and address any difficulties you may encounter. If needed, adjustments can continue to be made to the Action Plan to optimize its effectiveness for your family and maximize your child's progress.

## Step 4: Realize Your Bilingual Dream (The Years Ahead)

By the end of the third month, you'll have a clear, confident direction for your efforts moving forward, with sustainable habits and routines. Our steps together have enabled you to optimize your conditions and your actions, thus empowering you to maximize your child's language ability over the years ahead. Still, if further support is needed beyond the end of this program, you'll continue to have access to my advice and encouragement through **2 additional coaching sessions** that can be used any time you like as well as unlimited email and audio/video messages. This continuing support will set your mind at ease, knowing that you'll never be alone on this journey and that your dream of raising a bilingual or multilingual child will be realized with as much success and joy as possible.
