

BILINGUAL SUPERKIDS!

Powerful private coaching for parents worldwide

BILINGUAL BOOSTER!

Coaching for proactive parents seeking even stronger results

TAKE ACTION FOR EVEN GREATER SUCCESS!

This 3-month coaching program will enable parents already enjoying rewarding progress with their kids to accelerate that momentum even more. By optimizing the conditions of your child's language acquisition, and the daily actions that you pursue, your child will make stronger progress over time and the whole family will experience greater success and joy on your bilingual or multilingual journey. (The most fulfilling outcome possible!)

By the end of these 3 months, you'll gain many more productive strategies and tools for maximizing your child's language development. Moreover, this program also includes continuing coaching support after that, as needed, in various ways. So, no matter the new challenges you may face as you move into the future, you'll never feel alone on your journey. (Just reach out any time!) As a result, you'll surely enjoy deeper peace of mind and satisfaction throughout the childhood years.

Step 1: Analyze Your Circumstances (Weeks 1-2)

We'll start with a Full Analysis, analyzing all the factors that impact the success of your bilingual or multilingual aim. An in-depth questionnaire will paint a clear picture of your family's current circumstances, and a follow-up **coaching session in Week 2**, via Zoom or another video chat platform, will flesh out the details further. *(All coaching sessions last as long as we need, generally 1-2 hours.)* This analysis will enable us to identify the strengths and weaknesses of your situation, and determine ways to better optimize these basic conditions and your daily actions. Through this powerful first step, we'll be laying the foundation for maximizing your child's language development over the years ahead.

Step 2: Customize Your Action Plan (Weeks 3-4)

We'll then take the findings from our analysis and develop a clear, concrete Action Plan designed to fortify your conditions and your efforts even further. This customized plan will be set down in writing and will serve to motivate the most effective efforts you can make, day by day, as you move forward on your bilingual or multilingual journey. Our **coaching session in Week 4** will enable us to discuss your initial experience of this Action Plan and make suitable adjustments, as needed, to strengthen it further.

Step 3: Maintain Your Proactive Efforts (Weeks 5-12)

With the Action Plan as your guide, you'll stay proactive in your daily efforts to advance your child's language development. Toward this end, we'll put special attention on strengthening and sustaining productive habits and routines. Regular support through email and audio/video messages, along with two more **coaching sessions in Weeks 8 and 12**, will help you maintain your motivation and enhance your efforts. If needed, adjustments can continue to be made to the Action Plan to heighten its effectiveness for your family and maximize your child's progress.

Step 4: Realize Your Bilingual Dream (The Years Ahead)

By the end of the third month, you'll be able to boost your child's language development on an ongoing basis over the years ahead. Through optimizing your conditions and your actions, you have empowered the pace of your child's progress. Still, if further support is needed beyond the end of this program, you'll continue to have access to my advice and encouragement through **2 additional coaching sessions** that can be used any time you like as well as unlimited email and audio/video messages. This continuing support will set your mind at ease, knowing that you'll never be alone on this journey and that your dream of raising a bilingual or multilingual child will be realized with as much success and joy as possible.
