

BILINGUAL SUPERKIDS!

Powerful private coaching for parents worldwide

BILINGUAL BREAKTHROUGH!

Coaching for concerned parents now struggling in some way

OVERCOME YOUR STRUGGLES FOR GREATER SUCCESS!

Parents who are struggling in some way with their children's progress will experience a game-changing breakthrough in this 3-month program. By closely analyzing the current circumstances underlying these difficulties, and proactively addressing them, we will optimize the conditions of your child's language acquisition and the daily actions that you pursue. With more productive conditions, and more effective actions, your child can then make stronger progress and the whole family can experience greater success and joy. (Turning heartache into happiness!)

By the end of these 3 months, you'll be able to advance your bilingual or multilingual aim with more know-how and confidence. Moreover, this program also includes continuing coaching support after that, in various ways, so you'll never again feel alone on your journey. (No more lonely worries!) As a result, you'll enjoy deeper peace of mind and satisfaction throughout the childhood years.

Step 1: Analyze Your Circumstances (Weeks 1-2)

We'll start with a Full Analysis, analyzing all the factors that are impacting the success of your bilingual or multilingual aim. An in-depth questionnaire will paint a clear picture of your family's current circumstances, and a follow-up **coaching session in Week 2**, via Zoom or another video chat platform, will flesh out the details further. *(All coaching sessions last as long as we need, generally 1-2 hours.)* This analysis will enable us to identify the strengths and weaknesses of your situation, and determine ways to better optimize these basic conditions and your daily actions. Through this powerful first step, we'll be laying the foundation for overcoming the obstacles you now face and maximizing your child's language development over the years ahead.

Step 2: Customize Your Action Plan (Weeks 3-4)

We'll then take the findings from our analysis and develop a clear, concrete Action Plan designed to fortify your conditions and your efforts. This customized plan will be set down in writing and will serve to motivate the most effective efforts you can make, day by day, in order to address the current difficulties and advance toward the desired breakthrough in your bilingual or multilingual journey. Our **coaching session in Week 4** will enable us to discuss your initial experience of this Action Plan and make suitable adjustments, as needed, to strengthen it further.

Step 3: Maintain Your Proactive Efforts (Weeks 5-12)

With the Action Plan as your guide, you'll stay proactive in your daily efforts to overcome the obstacles and enable your child to make stronger progress as you move forward on your journey. Toward this end, we'll put special attention on establishing and sustaining productive habits and routines. Regular support through email and audio/video messages, along with two more **coaching sessions in Weeks 8 and 12**, will help you maintain your persistence and perseverance. If needed, adjustments can continue to be made to the Action Plan to optimize its effectiveness for your family and maximize your child's language development.

Step 4: Realize Your Bilingual Dream (The Years Ahead)

By the end of the third month, you'll have experienced a pivotal transformation in your bilingual or multilingual journey by addressing your difficulties more effectively while optimizing your conditions and actions. At this point, you are empowered to maximize your child's language ability over the years ahead with productive habits and routines and a positive, proactive spirit. Still, if further support is needed beyond the end of this program, you'll continue to have access to my advice and encouragement through **2 additional coaching sessions** that can be used any time you like as well as unlimited email and audio/video messages. This continuing support will set your mind at ease, knowing that you'll never be alone on this journey and that your dream of raising a bilingual or multilingual child will be realized with as much success and joy as possible.
